

Licensed Child Care Daily COVID-19 Health Screening Checklist For Child Care Centre Employees

An enhanced screening process must be completed daily in licensed child care settings, as per Ministry of Health direction. The responses you provide will be used to determine your child's eligibility to enter the program on the current day. The health of children, families and the clients of essential workers who access this child care program depends on your honesty and accuracy in completing this screening tool.

Collection of personal information

Applies to personal information about the children in our care, their parents/legal guardians, their siblings, and other individuals who are involved in their care and upbringing (collectively, "the children in our care and their families"). Niagara Nursery School respects privacy and we have a longstanding commitment to protecting the personal information of the children in our care and their families.

For the purposes of this policy, "personal information" is defined as any identifiable information about the children in our care and their families, such as contact details, health information, living arrangements, background information, the child's personal characteristics and behaviour styles.

Personal information is only collected, used and disclosed by Niagara Nursery School in accordance with this Privacy Policy and the legal obligations imposed by the Personal Information Protection and Electronic Documents Act (PIPEDA).

Employee name: _____
